LETTER OF TRANSMITTAL

Armed Forces Medical Library,
21 July, 1955.

Major General Silas B. Hays,
The Surgeon General, United States Army.

General:

I have the honor to transmit herewith the Eleventh Volume of the Fourth Series of the Index-Catalogue of the Library of the Surgeon General's Office.

This is the fifty-eighth volume of the publication, begun under the direction of Dr. John Shaw Billings in 1880; it is the last volume to be issued in the traditional format. Following this, the Library plans to issue a five- or six-volume Supplementary Series of the Index-Catalogue, greatly modified as to form and content; in this work we are currently engaged. When the Supplementary Series is eventually completed, sometime within the next decade, the Index-Catalogue will be at an end.

The reasons for closing out this great medical bibliography have been described in detail in an article published in Texas Reports on Biology and Medicine (8:271–300 [1950]). It is perhaps well to repeat the main argument here.

In 1921, when the Third Series was underway, Gen. Robert E. Noble, then Librarian, proposed changing the method of publishing the Index-Catalogue, to provide for an annual volume, complete in itself for a given time span, rather than for extended serial publication requiring a twenty-year cycle for completion of any one Series. General Noble was alarmed at the ever-increasing gulf between the number of items indexed and the number of items published; even in his day the unpublished backlog consisted of over 1,000,000 items.

In 1926, Col. James M. Phalen, then Librarian, announced that beginning with Volume VI of the Third Series, subject entries for periodical articles would be made only for material which had appeared before that date. This policy was reversed beginning with the publication of the first volume of the Fourth Series in 1936.

In 1938 Col. Harold W. Jones, then Librarian, attempting to find a solution to this problem of accumulated unpublished references, proposed the regular annual publication of alphabetical volumes, and this policy was followed until 1943. In 1944 Colonel Jones called a conference of consultants, which considered the possibility of adopting a 12-year cycle for each alphabetical series. Concurrently, the Library was surveyed by a special committee of the American Library Association; the report of this committee contained a number of suggestions for the future of the Index-Catalogue.

In 1947 Col. Joseph H. McNinch, then Director, recommended that an advisory committee of consultants on the indexes published by the Army Medical Library be appointed; this Committee came into being in the summer of 1948. Its membership was carefully selected to represent the best thought available on medical bibliography. Over a period of three and a half years, first under the chairmanship of Dr. Lewis H. Weed, and later under the chairmanship of Dr. Chauncey D. Leake, the Committee held twelve meetings in which it systematically explored the questions of use of and

need for medical indexes, and of techniques, including new machine methods, which might be employed in constructing them. During the life of the Committee, a special research project was undertaken at Johns Hopkins University by Dr. Sanford V. Larkey, who also served as a member of the Committee; the studies of the research project were available to the Committee for its deliberation.

The Committee learned that the unpublished file of cards totalled 1,750,000; and that the file was increasing at a rate of better than 200,000 cards per year. Publication was progressing at the rate of one volume of 80,000 references every three years. Considering that by 1950 a total of 2,865,000 references had already been published in the four series of the Index-Catalogue, and projecting the rates of indexing and publishing beyond that time, it was apparent that if the Index-Catalogue were to continue in its present form, by the year 1958 the total number of items published would be 3,105,000, whereas the total number of items in the unpublished backlog by 1958 would be 3,150,000. In other words, by 1958 the Index-Catalogue would be withholding from publication more information than it had been able to publish in the 78 years from 1880 to 1958. Thereafter, even if annual volumes of 80,000 references could be published, an annual publishing deficit of 120,000 items would be incurred, swelling the gigantic backlog.

The Committee recommended that the Index-Catalogue be brought to a close with the volume then in preparation (the present volume); that selected monographic material from the backlog (the Supplementary Series) be published, and that the Library continue to develop an indexing program of its current receipts of current material.

In response to the last charge, the Library rehabilitated its monthly Current List of Medical Literature, in which since 1950 it has indexed the current significant periodical literature of medicine at a consistent rate of 100,000 items annually, with semi-annual cumulations of subject and author indexes. In addition, the Library has published an annual Catalog, containing author and subject entries for all monographic items processed in the Library during the year; it is to be noted that the first five-year cumulation of the Catalog has been published this year.

The basic concept of our program is that the four series of the Index-Catalogue, along with the Supplementary Series to be published, constitute the subject key to our holdings up to 1950; beginning in 1950 and thenceforth, the Catalog and the Current List fulfill our obligations in this area.

This present volume of the Index-Catalogue illustrates well both the great virtues and the great defects of the old system. The virtues hinge on the tremendous panorama of medicine which is disclosed; the defects revolve around a catchword style of subject entry almost inescapably inherent in the old plan, limiting complex material to entry under a single subject, and especially the time lag of decades between appearances of volumes containing material under the same letter. These aspects are most striking in the Military Section, where a complete alphabetical range is displayed within a single volume, rather than in a single series.

Four men have edited the Index-Catalogue throughout its existence—Fletcher, Garrison, Alleman and, for the Fourth Series, Claudius F. Mayer. Dr. Mayer left the Library staff in September 1954; at the time of his departure all material included in this volume was already in the hands of the printer.

The box-score for the Index-Catalogue over the years is indicated in the following tabulation:

	Author titles	Subject titles	
		Books and pamphlets	Journal articles
First series (v.1–16, 1880–95)	176,364	168,537	511,112
Second series (v.1–21, 1896–1916)	169,182	136,405	645,557
Third series (v.1–10, 1918–32)	88,876	57,034	603,600
Fourth series (v.1–11, 1936–55):			
Volume One (A) 1936	2,779	4,454	71,168
Volume Two (B) 1937	8,892	3,631	79,874
Volume Three (C) 1938	4,281	4,302	77,479
Volume Four (D) 1939	3,798	4,375	55,950
Volume Five (E, F) 1940	5,499	5,630	88,048
Volume Six (G) 1941	5,836	3,125	58,871
Volume Seven (H) 1942	6,443	6,542	60,502
Volume Eight (I, J) 1943	2,928	3,616	51,319
Volume Nine (K, L) 1945	10,462	3,967	91,337
Volume Ten (M_1) 1948	7,214	5,890	62,876
Volume Eleven (M_2) 1955	2,012	10,801	98,343
Total for Fourth series	60,144	56,533	795,767
Grand total	494,566	418,309	2,556,036

The 3,000,000 subject references in the 58 volumes of the Index-Catalogue (volumes found on medical library shelves throughout the world) constitute a permanent body of reference covering publications of the 15th to the 20th century. The continuing usefulness of this material is assured. The Armed Forces Medical Library now turns its attention to the more pressing tasks of providing bibliographic keys to the current literature of medicine which will appear promptly, will be reasonably comprehensive in scope, and will be as convenient to use as our ingenuity can devise, or as time and money limitations may dictate.

FRANK B. ROGERS,
Lieutenant Colonel, Medical Corps, United States Army
The Director, Armed Forces Medical Library

No. 2. The estrous cycle of the cotton-rat, Sigmodon hispidus. Clark, F. H. 1936.

No. 3. A graphic method for comparing several sets of measurements. Dice, L. R., & Leraas, H. J. 1936.

No. 4. Fertility relations in the Peromyscus leucopus group of mice. Dice, L. R. 1937.

No. 5. Partial infertility between two members of the Peromyscus truei group of mice. Dice, L. R., & Watson, M. L. 1937.

No. 6. Variation in Peromyscus maniculatus osgoodi from the Uinta Mountains, Utah. Leraas, H. J. 1938.

No. 7. Inheritance and linkage relations of mutant characters in the deer mouse, Peromyscus maniculatus. Clark, F. H. 1938.

No. 8. Variation in the cactus-mouse, Peromyscus eremicus. Dice, L. R. 1939.

No. 9. Variation in the wood-mouse, Peromyscus leucopus, from several localities in New England and Nova Scotia Dice, L. R. 1939.

No. 10. An estimate of the population of deer-mice in the Black Hills of South Dakota and Wyoming. Dice, L. R. 1939.

No. 11. The inheritance of epilepsy and of waltzing in Peromyscus. Watson, M. L. 1939.

No. 12. Variation in the deer-mouse (Peromyscus maniculatus) in the Columbia Basin of southeastern Washington and adjacent Idaho and Oregon. Dice, L. R. 1939.

No. 13. Intergradation between two subspecies of deer-mouse (Peromyscus maniculatus) across North Dakota. Dice, L. R. 1940.

No. 14. The theoretical effectiveness of adverse selection. Dice, L. R. 1940.

No. 15. Variation of the deer-mouse (Peromyscus maniculatus) on the sand hills of Nebraska and adjacent areas. Dice, L. R. 1941.

No. 16. Color variation in the spotted ground squirrels of the Tularosa Basin, New Mexico. Blair, W. F. 1941.

No. 17. The small mammal population of a hardwood forest in northern Michigan. Blair, W. F. 1941.

No. 18. Variation in the deer-mouse, Peromyscus maniculatus, in parts of Oregon, California, and Baja California. Dice, L. R. 1941.

No. 19. Variation in the deer-mouse (Peromyscus maniculatus) of the Bad Lands and Black Hills of South Dakota and Wyoming. Dice, L. R. 1942.

No. 20. Ecological distribution of mammals in the Tularosa Basin, New Mexico. Blair, W. F. 1943.

No. 21. Population of the deer-mouse and associated small mammals in the Mesquite Association of southern New Mexico. Blair, W. F. 1943.

No. 22. Hybridization in nature between species of catostomid fishes. Hubbs, C. L., Hubbs, L. C., & Johnson, R. E. 1943.

No. 23. Hybridization in nature between species of American cyprinodont fishes. Hubbs, C. L., Walker, B. W., & Johnson, R. E. 1943.

No. 24. Biological and morphological distinctness of a previously undescribed species of the Peromyscus truei group from Texas. Blair, W. F. 1943.

No. 25. Inheritance of the white-cheek character in mice of the genus Peromyscus. Blair, W. F. 1944.

No. 26. Experimental evidence of sexual isolation between three forms of mice of the cenospecies Peromyscus maniculatus. Blair, W. F., & Howard, W. E. 1944.

No. 27. The inheritance of eye color in man. Hughes, B. O. 1944.

No. 28. Variation of the deer-mouse (Peromyscus maniculatus) in parts of Idaho, Montana, Utah, and Wyoming. Dice, L. R. 1944.

No. 29. Serological differences in the genus Peromyscus demonstrable with normal human sera. Cotterman, C. W 1944.

No. 30. Variation of the deer-mouse (Peromyscus maniculatus) in a mountainous area of southern New Mexico. Dice, L. R. 1944.

No. 31. Speciation in limpets of the genus Acmaea. Test, A. R. G. 1946.

No. 32. Occurrence of parallel series of associated physiological and morphological characters in diverse groups of mosquitoes and other insects. Hovanitz, W. 1947.

No. 33. A weighting system for the estimation of gene frequencies from family records. Cotterman, C. W. 1947.

No. 34. Effectiveness of selection by owls of deer-mice (Peromyscus maniculatus) which contrast in color with their background. Dice, L. R. 1947.

No. 35. An analysis of certain genetic variations in pelage color of the Chihuahua deer-mouse (Peromyscus maniculatus blandus) Blair, W. F. 1947.

No. 36. Estimated frequencies of the buff and gray genes (G, g) in adjacent populations of deer-mice (Peromyscus maniculatus blandus) living on soils of different colors. Blair, W. F. 1947.

No. 37. Variation in shade of pelage of local populations of the cactus-mouse (Peromyscus eremicus) in the Tularosa Basin and adjacent areas of Southern New Mexico. Blair, W. F. 1947.

No. 38. The occurrence of buff and gray pelage in widely

separated geographic races of the deer-mouse (Peromyscus maniculatus) Blair, W. F. 1947.

No. 39. Cellular antigens in three stocks of Peromyscus maniculatus from the Columbia River Valley. Moody, P. A. 1948.

No. 40. Variation in the pygmy mouse (Baiomys taylori) from Texas and Arizona. Blair, W. F., & Blossom, P. M. 1948.

No. 41. Differences in the field activity of two female color phases of Colias butterflies at various times of the day. Ilovanitz, W. H. 1948.

No. 42. Occurrence of neoplasms in three related individuals of laboratory-bred Peromyscus. Fliegelman, M. T., & Harris, V. T. 1948.

No. 239. Variation in a geographic race of the deer-mouse, Peromyscus maniculatus bairdii. Dice, L. R.

No. 240. Dragonflies collected in Missouri. Williamson, E. B.

No. 241. Notes on the period of post-depositional development in several common lizards. Ruthven, A. G., & Stuart, L. C.

No. 242. Cottus tubulatus, a new sculpin from Idaho. Hubbs, C. L., & Schultz, L. P.

No. 243. Notes on the amphibians and reptiles of Utah. Ruthven, A. G.

No. 244. The lizards of the middle Pahvant Valley, Utah; materials for a study in saurian distribution. Stuart, L. C.

No. 245. A new Oryzomys from a pine ridge in British Honduras. Murie, A.

No. 246. The amphibians and reptiles of the Guadalupe Mountains of New Mexico and Texas. Mousauer, W.

No. 247. Two new species of Styluxus (Odonata-Gomphinæ) Williamson, E. B.

No. 248. Four new mammals from Costa Rica. Harris, W. P., jr.

No. 249. The Japanese flounders of the genera Tanakius, Microstomus and Glyptocephalus. Hubbs, C. L.

No. 250. An annotated list of the forms of the genus Pituophis. Stull, O. G.

No. 251. The status of the snake genus Rhadinaea Cope. Dunn, E. R.

No. 252. Studies of the fishes of the order Cyprinodontes; a new genus related to Empetrichthys. Hubbs, C. L.

No. 253. Seasonal changes in the male population of Faxonius propinquus (Girard) Creaser, E. P.

No. 254. Studies on neotropical Colubrinae; some new species and subspecies of Eudryas Fitzinger, with an annotated list of the forms of Eudryas boddaertii (Sentzen) Stuart, L. C.

No. 255. Some birds of the Rio Grande delta of Texas. Van Tyne, J.

No. 256. A new solitary vireo from British Honduras. Van Tyne, J.

No. 257. Description of a new Anolis from Yucatan. Ruthven, A. G.

No. 258. Notes on the brackish water bivalve, Polymesoda caroliniana (Bosc) Van der Schalie, H.

No. 259. Report on a collection of amphibians and reptiles from Sonora, Mexico, with the description of a new lizard. Allen, M. J.

No. 260. A new skink from Mexico. Ruthven, A. G., & Gaige, H. T.

No. 261. Somatochlora ozarkensis, a new species from Oklahoma (Odonata-Cordulinae) Bird, R. D.

No. 262. A new Somatochlora from Florida (Odonata-Cordulinae) Williamson, E. B., & Gloyd, L. K.

No. 263. A new Gastrotheca from Colombia. Gaige, H. T.

No. 264. The status of Sympetrum assimilatum (Uhler) and Sympetrum decisum (Hagen) (Odonata-Libellulinae) Williamson, E. B.

No. 265. Description of a new rock pocket-mouse and a new desert-mouse from southern Arizona. Blossom, P. M.

VOL. 12 (1933–34)

No. 266. A new tree squirrel and a new cottontail rabbit from Costa Rica. Harris, W. P., jr.

No. 267. Two new subspecies of the family Boidae. Stull, O. G.

No. 268. Contributions toward a knowledge of the natural history and immature stages of the crane-flies; the genus Polymera Weidemann. Rogers, J. S.

No. 269. A check list of nearctic Zonitidae. Baker, H. B.

No. 270. The ecological relationship of two subspecies of Peromyscus in the Glacier Park region, Montana. Murie, A.

No. 271. Variation in Peromyscus maniculatus rufinus from Colorado and New Mexico. Dice, L. R.

No. 272. A new species of Pseudacris from the southeastern United States. Brandt, B. B., & Walker, C. F.

No. 273. A new woodrat from southwestern Arizona and a new rock pocket-mouse from northwestern Sonora. Blossom, P. M.

No. 274. A new corduline dragonfly, Tetragoneuria sepia, from Florida (Odonata) Gloyd, L. K.

No. 275. Descriptions of some new and poorly known species of North American crayfishes. Creaser, E. P.

No. 276. A study of Polygyra inflecta (Say) Archer, A. F.

No. 277. Description of a new kinosternid from Yucatan. Hartweg, N.

No. 278. A faunistic area of five isolated species of crayfish in southeastern Missouri. Creaser, E. P.

No. 279. A new Pitta from Palawan, Philippine Islands. Brodkorb, P.

No. 280. Fifty years of bird migration in the Ann Arbor region of Michigan, 1880–1930. Wood, N. A., & Tinker, A. D.

No. 281. A new Hyla from Guatemala. Gaige, H. T., & Stuart, L. C.

No. 282. A new genus and species of blind amphipod with notes on parallel evolution in certain amphipod genera. Creaser, E. P.

No. 283. The broad-banded copperhead; a new subspecies of Agkistrodon mokasen. Gloyd, H. K., & Conant, R.

No. 284. Studies on neotropical Colubrinae; an apparently new species of Coluber from Guatemala. Stuart, L. C.

No. 285. A new crayfish from North Carolina. Creaser, E. P.

No. 286. Studies of the gastropod family Pleuroceridae (i) Goodrich, C.

No. 287. The taxonomic status, range, and natural history of Schott's racer. Gloyd, H. K., & Conant, R.

No. 288. Dragonflies collected in Kentucky, Tennessee, North and South Carolina, and Georgia in 1931. Williamson, E. B.

No. 289. Report on a collection of reptiles and amphibians made in Arizona during the summer of 1933. Campbell, B.

No. 290. An unusual situation in the salamander Amblystoma jeffersonianum (Green) Clanton, W.

No. 291. A preliminary list of Utah Odonata. Brown, C. J. D.

No. 292. A contribution to a knowledge of the herpetological fauna of El Petén, Guatemala. Stuart, L. C.

No. 293. Geographical variation in Belonopterus chilensis (Molina) Brodkorb, P.

No. 294. Progomphus dorsopallidus, a new species from Venezuela (Odonata-Gomphinae) Byers, C. F.

No. 295. Studies of the gastropod family Pleuroceridae (ii) Goodrich, C.

VOL. 13 (1934–36)

No. 296. Two new rodents of the genera Glaucomys and Zapus from Utah. Hall, E. R.

No. 297. The naiad of Celithemis monomelaena Williamson (Odonata-Libellulidae) Leonard, J. W.

No. 298. Coelorhynchus marinii, a new macrouroid fish from Argentina and South Georgia. Hubbs, C. L.

No. 299. Asiatic fishes (Diploprion and Laeops) having a greatly elongated dorsal ray in very large postlarvae. Hubbs, C. L., & Chu, Y. T.

No. 300. Studies of the gastropod family Pleuroceridae (iii) Goodrich, C.

No. 301. Studies of the fishes of the order Cyprinodontes; Quintana atrizona, a new poeciliid. Hubbs, C. L.

No. 302. Studies of the fishes of the order Cyprinodontes; Plectrophallus regarded as a distinct genus. Hubbs, C. L.

No. 303. The name of the western race of red-headed woodpecker. Brodkorb, P.

No. 304. Notes on Texas robber flies with the description of a new species of Proctacanthella (Asilidae–Diptera) Bromley, S. W.

No. 305. The scientific name of two sunfishes, Helioperca macrochira (Rafinesque) and Eupomotis microlophus (Günther) Hubbs, C. L.

No. 306. A new flycatcher from Texas. Brodkorb, P.

No. 307. Observations on Typhlops from Puerto Rico and some of the adjacent islands. Ruthven, A. G., & Gaige, H. T.

No. 308. Mullus argentinae, the surmullet of southern South America. Hubbs, C. L., & Marini, T. L.

No. 309. Studies on neotropical Colubrinae; a new snake of the genus Lampropeltis from Yucatan. Stuart, L. C.

No. 310. A new Anolis from northern Central America. Stuart, L. C.

No. 311. Studies of the gastropod family Pleuroceridae (iv) Goodrich, C.

No. 312. A study of racial hybrids in the deer-mouse, Peromyscus maniculatus. Dice, L. R.

No. 313. A new race of Leptodeira from northern Central America. Dunn, E. R., & Stuart, L. C.

No. 314. Two new subspecies of the red-shafted flicker. Brodkorb, P.

No. 315. Description of a race of desert woodrat (Neotoma lepida) from Sonora. Blossom, P. M.

No. 316. A new ovenbird from Paraguay. Brodkorb, P.

No. 317. Geographic variation in Neotoma lepida in Arizona. Benson, S. B.

No. 318. Studies of the gastropod family Pleuroceridae (v) Goodrich, C.

No. 319. Two new dragonflies from Oklahoma. Pritchard, A. E.

No. 320. Anarchopterus, a new genus of syngnathid fishes from the western Atlantic. Hubbs, C. L.

No. 321. A new red-tailed hawk from Texas. Sutton, G. M., & Van Tyne, J.

No. 322. The subspecies of Sistrurus miliarius. Gloyd, H. K.

No. 323. The king snake of the Tres Marias Islands. Stuart, L. C.

No. 324. A new lizard from the Dutch Leeward Islands, Cnemidophorus murinus ruthveni. Burt, C. E.

No. 325. A Mexican subspecies of Crotalus molossus Baird and Girard. Gloyd, H. K.

No. 326. Three new North American species of Gomphinae (Odonata) Gloyd, L. K.

No. 327. Distribution and variation of a new subspecies of water snake, Natrix cyclopion floridana, with a discussion of its relationships. Goff, C. C.

No. 328. Some herpetological records from Monmouth and Ocean counties, New Jersey. Conant, R., & Bailey, R. M.

No. 329. The reptilian fauna of sand dune areas of the Vizcaino desert and of northwestern Lower California. Mosauer, W.

No. 330. Leptodeira bakeri, new species. Ruthven, A. G.

No. 331. A new genus for Empidonax atriceps Salvin. Brodkorb, P.

No. 332. Geographical variation in the piñon jay. Brodkorb, P.

No. 333. A new subspecies of bittern from western North America. Brodkorb, P.

No. 334. Seven new birds from the Punjab. Van Tyne, J., & Koelz, W.

No. 335. Notes on the sex ratio and breeding of the beaver in Michigan. Benson, S. B.

No. 336. The postjuvenal molt of the grasshopper sparrow. Sutton, G. M.

No. 337. The subspecies of Crotalus lepidus. Gloyd, H. K.

No. 338. Description of a new red squirrel from Isle Royale, Michigan. Howell, A. H.

No. 339. Studies of the fishes of the order Cyprinodontes; the characters and relationships of Furcipenis huberi and Alfaro cultratus. Rivero, L. H., & Hubbs, C. L.

No. 340. The land mollusca of Cheboygan County, Michigan. Archer, A. F.

No. 341. Austroperca, a new name to replace Torrentaria, for a genus of Mexican fishes. Hubbs, C. L.

No. 342. The first known blind fish of the family Characidae; a new genus from Mexico. Hubbs, C. L., & Innes, W. T.

VOL. 14 (1937–38)

No. 343. A new fish of the genus Apocope from a Wyoming warm spring. Hubbs, C. L., & Kuhne, E. R.

No. 344. A new pocket gopher (Thomomys) from southern Sonora, Mexico. Burt, W. H.

No. 345. New or noteworthy birds from the Paraguayan Chaco. Brodkorb, P.

No. 346. A new subspecies of water snake from islands in Lake Erie. Conant, R., & Clay, W. M.

No. 347. Studies of the gastropod family Pleuroceridae (vi) Goodrich, C.

No. 348. A new turtle from Florida, with notes on Pseudemys floridana mobiliensis (Holbrook) Carr, A. F., jr.

No. 349. Some birds of the Amazonian islands of Caviana and Marajó. Brodkorb, P.

No. 350. A new apterous grouse-locust from western Florida (Orthoptera-Acrididae) Hubbell, T. H.

No. 351. Additional data on variation in the prairie deer-mouse, Peromyscus maniculatus bairdii. Dice, L. R.

No. 352. Variation in the wood-mouse, Peromyscus leucopus noveboracensis, in the northeastern United States. Dice, L. R.

No. 353. Notes on tropical Lampropeltis. Dunn, E. R.

No. 354. A new Anisagrion from Panama, with notes on related species (Odonata-Zygoptera) Leonard, J. W.

No. 355. The juvenal plumage and postjuvenal molt of the chipping sparrow. Sutton, G. M.

No. 356. A contribution to the herpetology of the Isthmus of Tehuantepec; the Scelopori of the Pacific slope. Hartweg, N., & Oliver, J. A.

No. 357. Notes on a collection of amphibians and reptiles from eastern Nicaragua. Gaige, H. T., Hartweg, N., & Stuart, L. C.

No. 358. A synopsis of the variabilis group of the lizard genus Sceloporus, with descriptions of new subspecies. Smith, H. M.

No. 359. A contribution to the herpetology of the Isthmus

of Tehuantepec; the teiids of the Pacific slope. Hartweg, N., & Oliver, J.

No. 360. Notes on a collection of amphibians and reptiles from the state of Colima, Mexico. Oliver, J. A.

No. 361. A synopsis of the scalaris group of the lizard genus Sceloporus. Smith, H. M.

No. 362. New forms of Coniophanes Hallowell, and the status of Dromicus clavatus Peters. Bailey, J. R.

No. 363. Notes on some Mexican ophidians. Dunkle, D. H., & Smith, H. M.

No. 364. Notes on plethodont salamanders of the southeastern United States. Bailey, J. R.

No. 366. Description of a race of chipmunk from south central Idaho. Blossom, P. M.

No. 367. Five new birds from the Paraguayan Chaco. Brodkorb, P.

No. 368. Description of a new race of pocket gopher (Geomys lutescens hylaeus) from northwestern Nebraska. Blossom, P. M.

No. 369. New birds from the district of Soconusco, Chiapas. Brodkorb, P.

No. 370. A new caecilian from Ecuador. Hershkovitz, P.

No. 371. Kinosternon flavescens stejnegeri, a new turtle from northern Mexico. Hartweg, N.

No. 372. The structure and systematic relationships of the genus Rhinophrynus. Walker, C. F.

No. 373. Notes on neotropical bats. Sanborn, C. C.

No. 374. The scientific names of the American smooth dogfish, Mustelus canis (Mitchill) and of the related European species. Hubbs, C. L.

No. 375. Variation in nine stocks of the deer-mouse, Peromyscus maniculatus from Arizona. Dice, L. R.

No. 376. Studies of the gastropod family Pleuroceridae (vii) Goodrich, C.

No. 377. A new species of the genus Libellula from Yucatan. Gloyd, L. K.

No. 378. Redescription of the types of Protoneura tenuis Selys and a study of variation in this species. Cowley, J., & Gloyd, L. K.

No. 386. New Stratiomyidae and Tetanoceridae (Diptera) from North America. Steyskal, G. C.

No. 387. Remarks on the status of the subspecies of Sceloporus undulatus, with descriptions of new species and subspecies of the undulatus group. Smith, H. M.

No. 388. Notes on reptiles and amphibians from Yucatan and Campeche, Mexico. Smith, H. M.

No. 389. A new species of Appalachia from Michigan (Orthoptera-Acrididae-Cyrtacanthacrinae) Hubbell, T. H., & Cantrall, I. J.

No. 390. A contribution to the herpetology of the Isthmus of Tehuantepec; three new snakes from the Pacific slope. Hartweg, N., & Oliver, J. A.

VOL. 15 (1938–40)

No. 391. Two new squirrels from Ecuador. Harris, W. P., jr, & Hershkovitz, P.

No. 392. The Naiades (fresh-water mussels) of the Cahaba River in northern Alabama. Van der Schalie, H.

No. 393. A review of the rabbits of the andinus group and their distribution in Ecuador. Hershkovitz, P.

No. 394. Further additions to the avifauna of Paraguay. Brodkorb, P.

No. 395. A new noctuid from Michigan. Moore, S., & Rawson, G. W.

No. 396. Hadropterus oxyrhynchus, a new percid fish from Virginia and West Virginia. Hubbs, C. L., & Raney, E. C.

No. 397. A new American Pseudemys. Hartweg, N.

No. 398. The ecology of the mollusca of the Edwin S. George Reserve, Livingston County, Michigan. Archer, A. F.

No. 399. Hendersonia occulta (Say) in Michigan; its distribution, ecology, and geological significance. Van der Schalie, H.

No. 400. A new woodrat (Neotoma mexicana) from the lava beds of southern New Mexico. Burt, W. H.

No. 401. New subspecies of birds from the district of Soconusco, Chiapas. Brodkorb, P.

No. 402. The scientific writings of Bryant Walker; an annotated bibliography. Goodrich, C.

No. 403. New mammals from Texas and Oklahoma, with remarks on the status of Thomomys texensis Bailey. Blair, W. F.

No. 404. Pleuroceridae of the St Lawrence River basin. Goodrich, C.

No. 405. A new apogonid fish from Queensland. Whitley, G. P.

No. 406. Pleuroceridae of the Mississippi River basin exclusive of the Ohio River system. Goodrich, C.

No. 407. Medionidus mcglameriae, a new naiad from the Tombigbee River, with notes on other naiads of that drainage. Van der Schalie, H.

No. 408. Two new species of Protoneura from South America (Odonata) Gloyd, L. K.

No. 409. A description of a new Gymnophthalmus from Guatemala, with notes on other members of the genus. Stuart, L. C.

No. 410. Protoneura macintyrei, a new species of dragonfly from Ecuador (Odonata-Protoneurinae) Kennedy, C. H.

No. 411. A list of the butterflies of Michigan. Moore, S.

No. 412. The Mexican snakes of the genus Rhadinaea. Bailey, J. R.

No. 413. Notes on Mollusca from Alta Vera Paz, Guatemala. Van der Schalie, H.

No. 414. Lanthus albistylus (Hagen) a new record for Michigan, with ecological notes on the species (Odonata-Gomphinae) Leonard, J. W.

No. 415. On the status of Gomphaeschna antilope (Hagen) (Odonata) Gloyd, L. K.

No. 416. Percid fishes related to Poecilichthys variatus, with descriptions of three new forms. Hubbs, C. L., & Black, J. D.

No. 417. The Pleuroceridae of the Ohio River drainage system. Goodrich, C.

No. 418. Notes on the distribution of the Akodont rodent, Akodon mollis, in Ecuador with a description of a new race. Hershkovitz, P.

No. 419. A new spiny mouse of the genus Neacomys from eastern Ecuador. Hershkovitz, P.

No. 420. A new race of pocket gopher of the species Geomys lutescens from Colorado. Hooper, E. T.

No. 421. Notes on the Lampropholis group of Middle American Lygosoma (Scincidae) with descriptions of two new forms. Stuart, L. C.

No. 422. New pocket gophers from the vicinity of Mount Taylor, New Mexico. Hooper, E. T.

No. 423. A new subspecies of Peromyscus from Costa Rica. Harris, W. P., jr.

No. 424. A new pocket gopher from Lower California, Mexico. Burt, W. H.

No. 425. A new hawk from southern Mexico. Brodkorb, P

VOL. 16 (1941)

No. 426. Two new species of Goniobasis. Goodrich, C.

No. 427. Pleuroceridae of the small streams of the Alabama River system. Goodrich, C.

No. 428. Distribution of the gastropods of the Cahaba River, Alabama. Goodrich, C.

No. 429. The subspecies of the American percid fish, Poecilichthys whipplii. Hubbs, C. L., & Black, J. D.

No. 430. Notes on mammals from Sonora and Chihuahua, Mexico. Burt, W. H., & Hooper, E. T.

No. 431. Contribution to the ichthyology of Alaska, with descriptions of two new fishes. Hubbs, C. L., & Schultz, L. P.

No. 432. Hermaphroditism in Anodonta grandis, a fresh-water mussel. Van der Schalie, H., & Locke, F.

No. 433. Studies of the fishes of the order Cyprinodontes; genera and species of the Colorado River system. Hubbs, C. L., & Miller, R. R.

No. 434. Poecilichthys kanawhae, a new darter from the upper New River system in North Carolina and Virginia. Raney, E. C.

No. 435. Notes on three species of Aeolosoma (Oligochaeta) from Michigan. Kenk, R.

No. 436. A fresh-water triclad from Puerto Rico, Dugesia antillana, new species. Kenk, R.

No. 437. Notes on the genus Plectrohyla, with descriptions of new species. Hartweg, N.

No. 438. Notes on tadpoles of the genus Plectrohyla. Hartweg, N., & Orton, G.

No. 439. New birds from Yucatan. Van Tyne, J., & Trautman, M. B.

No. 440. Hadropterus nasutus, a new darter from Arkansas. Bailey, R. M.

No. 441. The South American harvest mice of the genus Reithrodontomys. Hershkovitz, P.

No. 442. Three new species of the genus Rhadinaea from Guatemala. Stuart, L. C., & Bailey, J. R.

No. 443. The type specimen of the water buffalo, Anoa mindorensis Steere. Hooper, E. T.

No. 444. A new Mexican salamander of the genus Oedipus. Woodall, H. T.

No. 445. The juvenal plumage and postjuvenal molt of the vesper sparrow. Sutton, G. M.

No. 446. The plumages and molts of the young eastern whippoorwill. Sutton, G. M.
